

Our Mission

Lorain County Conservation District provides leadership in a partnership effort to help people conserve, maintain, and improve the natural resources and environment in Lorain County

About Soil & Water Conservation Districts in Ohio

SWCDs are legal entities of the State of Ohio and are administered by a board of five elected supervisors who serve three-year staggered terms.

SWCDs partner with USDA-NRCS, ODNR, FSA, OSU extension, and many other organizations.

The Lorain County Conservation District (SWCD) Supervisors meet the third Tuesday of each month. All meetings are open to the public.
